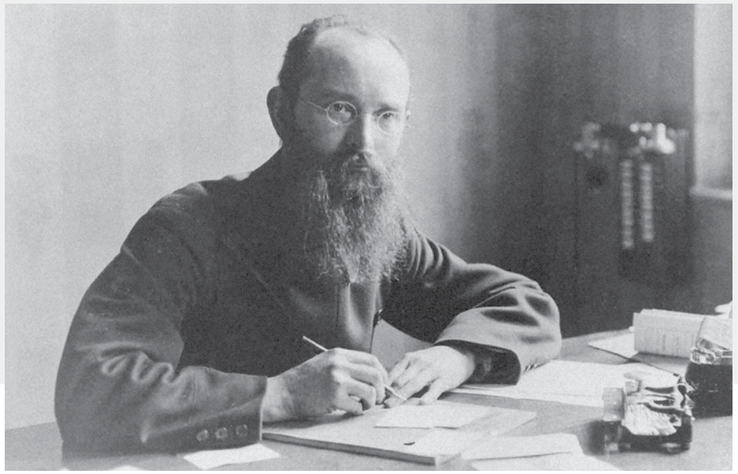
BOSCH
Invented for life

علامة الجودة الإماراتية
Emirates Quality Mark

Creating the future responsibly. As we have done for over 125 years.

Sustainability has shaped our thoughts and actions for generations, out of respect and responsibility towards people, our environment and natural resources. Our experience and innovative spirit determine the high quality of our products, making the world a better place to live.



Responsibility
Bosch operates on the basis of clear, long-term principles and, therefore, continues to be a reliable partner, even in times of rapid change. Responsibility for people, society and their environment is a key guiding principle for Bosch. With the “Green Technology inside” programme, we are committed to securing a better future and developing efficient and highly resource-friendly domestic appliances, taking environmental issues into consideration.

Quality
Bosch products make everyday life, and work at home, easier and better. We focus on developments that will play a major role in making life easier and, therefore, enhance quality of life on a day-to-day basis.

Reliability
Bosch domestic appliances meet extremely high standards and offer maximum ease of operation. The Bosch product philosophy is characterised by the values the company was built on. The premium quality can be felt in the high-quality materials and seen in the workmanship.

Technical expertise
The experience and innovative spirit of the hugely inventive Bosch brand guarantees superior technical developments and the ability to combine reliable old technologies with new ones. Bosch, therefore, offers holistic, perfected solutions that are driven by the needs of people and improves their quality of life by offering maximum user benefits.

Quality from Germany
The “German Engineered” label stands for high-class workmanship, and for the legendary quality of Bosch domestic appliances. Wherever possible, we utilise the innovative strength of German engineers and the advantages of German sites.

An economist once said:
“I would rather lose money than trust.”

A great thinker believed that:
“Success is not a question of skill, but of character.”

An industrialist said:
“All tasks are important, even the most modest.”

A philosopher knew that:
“In a meeting of many minds, people must be able to rely on each other.”

A visionary stated:
“Success can only come if you share responsibility.”

An engineer said:
“He who stops improving has stopped being great.”

These words all came from Robert Bosch. They live on today in the minds of Bosch employees, who carry on in his spirit, and above all, they live on in our products – making your life easier every day.

Make great-tasting things with good-looking things.

STYLINE

The Styline range of appliances are intelligent kitchen helpers and attractive breakfast companions; great-looking additions to your home – in an elegant white/silver design, offering plenty of power, innovation and convenience. All the appliances in this series feature a special Styline extra. For everyone who wants an easier and better looking life.

The Styline series from Bosch: Added technology for perfect results.

Our products are put to the test so you don’t have to go through them.

The function of good design today is to improve people’s quality of life. Products from Bosch are paradigms of this everyday art. The beauty of their design and perfect functionality make them a joy to use. They make complex, progressive technology understandable and easy to operate. They are also made from high-quality materials. For these reasons, small domestic appliances from Bosch carry the most coveted design awards.

Awards

The Stiftung Warentest has tested more than 72,000 products in over 4,000 tests over a period of around 40 years. The fact that small domestic appliances from Bosch and their professional performance have been distinguished with leading positions time and time again is the culmination of our unique expertise in domestic matters – and the consistent quality philosophy that Bosch applies in the development and production of each of its products.

reddot International Design Award: Its label is coveted in all countries. Its jury, made up of renowned designers and design experts from all over the world, enjoys the highest reputation. The reddot Design Award is one of the leading international design competitions – those who are awarded here are among the top players.

Product of the Year: For 28 years, Pro-K, the German industry association for consumer products made from plastic, has been voting for the 'Product of the Year' in its competition. An independent jury awards prizes for the products according to the criteria of functionality, design and creativity.

iF Design Award: It is one of the top three design competitions in the world, which has been held annually since 1953. Renowned experts from all over the world vote for the 'Design Award Winners' of the year. The products awarded the iF label represent the current trends in design.

Little kitchen helpers for you, from Bosch.

Cook up perfect meals for you and your family each time, every time.

You work hard to make sure your family gets delicious meals every day. With Bosch kitchen appliances, we take the effort out of cooking, helping you save time. This means you can enjoy spending time with the ones you love and leave all the kitchen work to our appliances.

You‘ve got the talent – now we give you three extra options.

The new MUM 5 HomeProfessional comes complete with a set of exclusive professional tools.

The new professional solution: MUM 5 HomeProfessional.
With its huge power, and high-quality brushed stainless steel and mystic black exterior, the MUM 5 Home**Professional** fits perfectly into this professional range. Equipped with its three new professional accessory tools - beating whisk, flexible whisk with silicon closure and Supercut cutting disc, it guarantees optimum results and award-winning cuisine in your own home.

Sophisticated accessory storage.
Like all MUM 5 appliances, the MUM 5 Home**Professional** has a very special extra feature; the practical accessory case that is a compact and secure place to store the accessories. It fits conveniently into the mixing bowl with its contents.

Through thick and thin, and right to the edge.

Fluffier and lighter dough than ever before, thanks to the new professional flexible whisk with silicon closure.

Folding in made simple.
Airy and fine mixtures, such as pâtisserie, creams and light doughs, come out perfect. Thanks to its silicone casing, the new professional flexible whisk passes directly along the side of the bowl. As a result, it picks up every last bit of all the ingredients, even with small quantities, guaranteeing perfect processing of dough, creams, egg yolk and sauces, without leaving any leftovers on the edge of the bowl.

Whipped into shape in no time.

The professional Supercut cutting disc gives your creations a professional finish.

An excellent cut.
The second new feature is the professional Supercut cutting disc with its special zig-zag blade. It glides through all foods as effortlessly as a chef’s knife. It cuts fresh ingredients exceptionally evenly, even if they have a very soft consistency, such as over-ripe tomatoes. But the cutting disc really shows its strength when cutting fibrous structures, such as leeks and celery. Here, it achieves an outstandingly precise cut. The cutting disc is also designed to process food right to the end, keeping inconvenient leftovers to a minimum.

The fine art of whisking.

The height-adjustable full metal professional beating whisk delivers light and airy results.

Fluffy, light and delicious.
The third new integrated accessory is the professional beating whisk, characterised by an improved balloon shape and extra-high processing power. Its new wires have a larger surface area which increases the friction. As a result, egg whites and cream are wonderfully light and creamy in seconds. The strong and stable wires also deliver outstanding results with semi-fluid ingredients, such as sponge mixtures, so you get a completely even and smooth mixture in a very short space of time. The height of the professional beating whisk can also be adjusted, meaning it can always be set precisely according to the processing quantity.

The right accessory to suit every taste.

The new premium kitchen machine from Bosch: You can enjoy top-class creations, thanks to numerous innovative functions.

Be it lasagne, delicious vegetable dishes or refined desserts – by using the practical accessory sets, the standard accessories or the wide range of special accessories, the MaxxiMUM lets everyone enjoy their favourite dishes.

Accessory sets

For fruit and vegetable connoisseurs:
The VeggieLove accessory set.
Delicious vegetable dishes can now be created in an instant – all thanks to the continuous shredder, which is equipped with five discs: Reversible cutting disc, reversible shredding disc, smooth grating disc, Asian vegetable disc and potato fritter disc. **MUZ XLVL1**

For pasta fans:
The PastaPassion accessory set.
By using the easy-to-operate lasagne and tagliatelle professional pasta accessories, guests are sure to be amazed by your homemade pasta specialities. **MUZ XLPP1**

For master bakers:
The VitalEmotion accessory set.
Make homemade flour in an instant using the grain mill. The universal mixer allows special touches, such as grated nuts or pesto, to be added to home-baked delicacies. **MUZ XLVE1**

For meat lovers:
The HuntingAdventure accessory set.
The meat mincer, which includes an adapter and sausage stuffing set, is perfect for making all kinds of sausage meat and minced meat mixtures. **MUZ XLHA1**

Standard accessories

Picks up absolutely everything:
The Absolut stirring whisk.
Thanks to its silicone coating, the Absolut stirring whisk is able to whisk right up to the sides of the bowl – meaning no residue is left behind and even egg whites can be folded in gently.

Whisk to perfection:
The height-adjustable professional beating whisk.
Impressive ten wires make for delicate, airy cream and perfect egg whites. The professional beating whisk is also ideal for preparing sponge mixtures – and because the whisk is height-adjustable, perfect beating results are achieved even when using the smallest of quantities.

The perfect dough, through and through:
The high-performance kneading hook.
Thanks to the special shape of the high-performance kneading hook, dough is constantly separated and then kneaded together again – just like kneading by hand, only with no effort at all.

The perfect mix for guests:
The ThermoSafe glass blender.*
Smoothies, ice cubes, frozen fruit, hot soups and ice-cold drinks, the ThermoSafe glass blender, with a capacity of 1.75 l, is a real all-rounder for culinary delights.

*Available in model MUMXL20C

You don’t need a reason to celebrate.

Whip up a storm in your kitchen with Bosch.

The multi-talent for every gourmet moment.

The new MultiTalent premium food processor with an innovative CubeCutter. For highest demands and creative cooking pleasure – day in, day out.

50+ Functions

We believe the professional package should come as standard.
Even the entry-level model in the MultiTalent range offers over 50 functions, bringing versatility and high-quality to your cooking and food preparation. Slicing vegetables, kneading dough, liquidising fruit, grating cheese, whipping cream, mixing soups, crushing ice – there's virtually nothing that the MultiTalent can't do. But if that's not enough, there is also a premium model with over 50 functions.

Kneading tool
Eliminates the effort of kneading for all sorts of dough used in cooking and baking.

Whisk
(Stainless steel)
Beats cream and egg whites or light cake mixtures – this versatile, high-tech tool won't let you down.

Cutting accessories
(Stainless steel)
A variety of cutting functions:
– reversible slicing disc
– reversible shredding disc
– french fries disc
– julienne disc
– coarse grating disc

Mini-chopper
The four blades of the QuattroBlade easily cut through any food.

Blender
(Plastic, 1.5 l)
For quickly liquidising fruit, vegetables, sauces, soup and shakes without any mess.

Juice extractor
For use with various types of fruits and vegetables. Easy to clean.

Citrus press
To easily juice citrus fruits to use in healthy juices or shakes.

Cleverly designed **accessory bag** for storing attachments. Practical, robust and machine-washable.

Europe's No. 1

MES4000GB
Juicer, Silver/Black

1000 Watt | DripStop | SafetyStop

- High power heavy duty motor: 1000 Watts
- Housing made of aluminium die-cast for premium-quality appearance
- Juice outlet made of stainless steel for high endurance

Comfort
- XXL feeding tube (84 mm) for quick and easy preparation of whole fruits and vegetables
- Juice outlet with DripStop avoids dripping and provides for a clean working top after juicing
- Two speed settings for hard and soft fruits
- Large, removable pulp container with 3 l capacity
- Easy storage: Integrated cable storage for simple and quick storage of the cable
- Universal use for different types of fruits and vegetables
- Automatic pulp emission

Safety
- Safety Stop: Juicer only works when all parts are properly assembled and stops working when opened during processing. No risk of injury, no risk of splashing
- Aluminium die-cast clamp: High tightening force - no leakage
- Rubber feet provide high stability

Cleaning
- Ceramic knife with electropolished, stainless steel sieve for easy cleaning and best juice extraction
- Easy-to-clean: All detachable parts are dishwasher safe

Accessories included
- Container for juice with 1.5 l capacity and foam separator

Carrot-Orange Juice

Healthy carrot-orange juice is a summer favourite. Jazz up plain orange juice by adding a yellow tomato, apple and carrots that pack in immune-boosting vitamins A and C.

Ingredients
- 1 medium yellow tomato, cut into wedges
- 1 medium orange, peeled and quartered
- 1 medium apple, cut into eighths
- 4 large carrots, peeled
- Ice cubes (optional)

Preparation

Working in this order, process tomato, orange, apple and carrots through the juicer.

Fill 2 glasses with ice, if desired, and pour the juice into the glasses. Serve immediately.

Ginger-Beet Juice

Add a fresh dimension to ginger-beet juice by adding kale and carrot. To sweeten, introduce a fresh measure of orange and apple.

Ingredients

- 1 medium orange, peeled and quartered
- 3 kale leaves
- 1 medium apple, cut into wedges
- 1 medium carrot, peeled
- 1 large beet, peeled and cut into wedges
- 1 x 1-inch piece of fresh ginger, peeled
- Ice cubes (optional)

Preparation

Working in this order, process orange, kale, apple, carrot, beet and ginger through the juicer.

Fill 2 glasses with ice, if desired, and pour the juice into the glasses. Serve immediately.

Spinach-Apple Juice

This healthy spinach-apple juice is a green nutrient powerhouse loaded with calcium for bone health and vitamins A and C for antioxidants.

Ingredients

- ½ cup spinach
- ½ grapefruit, peeled, white pith removed
- 2 green apples, cut into eighths
- 1 x 1-inch piece of fresh ginger, peeled
- Large stalks celery
- Ice (optional)

Preparation

Working in this order process spinach, grapefruit, apples, ginger and celery through the juicer.

Fill 2 glasses with ice, if desired, and pour the juice into the glasses. Serve immediately.

Creamsicle Breakfast Smoothie

This creamsicle breakfast smoothie is a balanced breakfast loaded with carbs, protein and essential electrolytes.

Ingredients

- 1 cup cold, pure coconut water, without added sugar or flavour
- 1 cup non-fat vanilla Greek yoghurt
- 1 cup frozen or fresh mango chunks
- 3 tablespoons frozen orange juice concentrate
- 2 cups ice

Preparation

Blend coconut water, yoghurt, mango, orange juice concentrate and ice in a blender until smooth.

Wake-Up Smoothie

Jump-start your day with a nutritious berry smoothie. Ready in only minutes, this glass of goodness comes topped with vitamin C, fibre, potassium and soy protein.

Ingredients

- ¼ cup orange juice, preferably calcium-fortified
- 1 banana
- ¼ cup frozen berries, such as raspberries, blackberries, blueberries and/or strawberries
- ½ cup low-fat silken tofu, or low-fat plain yoghurt
- 1 tablespoon sugar, or sugar substitute (optional)

Preparation

Combine orange juice, banana, berries, tofu (or yoghurt) and sugar (or sugar substitute). If using a blender, cover and blend until creamy. Serve immediately.

Looking for an attractive kitchen appliance? Look no further!

Who says a hand blender is just a hand blender? Thanks to its four blades, this one – our MSM 7 Styline Colour model – offers even more power, improved speed and better results, which you can both see and serve – whether its mayonnaise, chopped vegetables, soups, sauces or shakes. The MSM 7 works quickly, quietly and efficiently to produce a consistent result.

MSM7700GB
Hand Blender

- 750 Watts
- Powerful, quiet, low vibration motor
- Electronic speed control
- Extra turbo button for maximum performance
- High-quality, stainless steel foot
- Innovative four-wing blade for perfect results
- Excellent handling through soft touch handle and ergonomic shaping
- LED speed indicator
- Optimised design of blender foot prevents splashing
- Easily detachable blender foot with eject button
- Cable outlet serves as hanging loop and cable clip at the same time
- Mini-chopper with removable, stainless steel blades and lid
- Stainless steel balloon whisk attachment
- Mixing jug with calibration and lid
- Blender foot and attachments (except gear box) are dishwasher-proof

MSM6700GB
Hand Blender

- 600 Watts
- Powerful hand blender
- Excellent handling through soft touch handle and ergonomic shaping
- Quiet, low-vibration motor
- Variable speed
- Extra turbo button for maximum performance
- High-quality, stainless steel foot
- Easily detachable blender foot with eject button
- Mini-chopper with removable, stainless steel blades and lid
- Separate ice crushing blade to be used with the mini-chopper
- Stainless steel balloon whisk attachment
- Mixing jug with calibration and lid
- Blender foot and attachments (except gear box) are dishwasher-proof
- Stainless steel foot and balloon whisk, dishwasher-proof
- Wall mount

MSM6300GB
Hand Blender

- 600 Watts
- Powerful hand blender
- Excellent handling through soft touch handle and ergonomic shaping
- Quiet, low-vibration motor
- Variable speed
- Extra turbo button for maximum performance
- Heat resistant plastic foot with stainless steel blades
- Easily detachable blender foot with eject button
- Mini-chopper with removable, stainless steel blades and lid
- Mixing jug with calibration and lid
- Wall mount
- Blender foot and attachments (except gear box) are dishwasher-proof

MSM6B150GB
Hand Blender

- 300 Watt motor: Low noise and low vibration
- Slim line, elegant design
- Ergonomically-designed for excellent handling
- Detachable blender foot made of temperature-resistant plastic
- Easy-to-clean, non-splash blender foot
- All parts (except gear box) are dishwasher-proof
- Symbolic instruction hints facilitate operation
- Transparent, calibrated mixing beaker

MFQ3555GB
Hand Mixer

- 350 Watts
- Modern motor technology: Powerful, but at the same time, light and quiet
- 5 speed settings
- Additional pulse/turbo setting
- Separate eject button for beaters and dough hooks
- 2 turbo beaters for perfect whisking and stirring results
- 2 heavy duty stainless steel kneading hooks
- Possibility to attach a blender foot
- Comfortable operation due to stand and rotating bowl
- Wrap around cable storage

MFQ36450GB
Hand Mixer

- 450 Watts
- Modern motor technology: Powerful, but at the same time, light and quiet
- Excellent handling through soft touch handle, large buttons and ergonomic shaping
- 5 speed settings
- Additional pulse/turbo setting
- Separate eject button for beaters and dough hooks
- 2 turbo beaters for perfect whisking and stirring results
- 2 heavy duty stainless steel kneading hooks
- Wrap around cable storage
- Possibility to attach a blender foot
- A blender foot can be attached and detached within seconds due to our patented click system
- Handy mini-chopper cuts herbs, nuts, onions, meat, cheese etc.

MFQ36300GB
Hand Mixer

- 400 Watts
- Modern motor technology: Powerful, but at the same time, light and quiet

- Additional container for easy storage of processed spices, herbs and food
- 2 speed settings for different applications
- Measuring cup in lid with scale (Max. 20 ml)

Cleaning
- Jug, lid, measuring cup and accessories are dishwasher-proof

Material/Design
- All plastics that are in contact with food are BPA-free

Accessories included
- ToGo cup with lid for drinks and 1-2 dishes (e.g. soups)
- Additional container for small amounts
- Juice filter for perfect seedless smoothies and soy milk

Don’t miss out on the most important meal of your day.

Enjoy breakfast like never before with Bosch appliances.

Fast, easy and always delicious, mornings will become your favourite time of the day with Bosch appliances.
So now, you can start every morning with the best breakfast possible, keeping you alert and active throughout the day.

It’s not just coffee. It’s a way of life.

Explore some of the best coffee from around the world and find your favourite.

Grade A Costa Rican Tarrazu
Grown in volcanic soil found in the Tarrazu region lying South of San José, Costa Rica, this coffee is guaranteed to give you a spectacular taste sensation with its robust aroma and distinctive, but not yet dominating, acidity.

Guatemala Finca Ceylany Anexos
Grown in the Atitlan region of San Miguel Pochuta at a height of 1200 to 1500 metres on volcanic clay soil, the coffee has a full, round flavour with a complex aroma. Hints of chocolate add to its appeal.

Mexiko Santa Rita Pearls
This gourmet coffee, made from rare beans, has a distinctly spicy flavour with a light, delicate acidity. In fact, the beans are so rare and precious that they are treated like pearls; which also gives them their name.

Brazilian Fazenda Agua Limpa
Praised by experts world over for its elegant scent and mild, ripe acidity, this coffee wins top accolades and commands premium prices. The interplay of spicy, fruity and floral aromas on the palate make it a coffee that all connoisseurs cherish.

Brazilian Fazenda Lagoa
This soft, nutty Arabica from the Fazenda Lagoa farm is one of Brazil’s most outstanding specialty coffees. A high growing area, combined with the climate, give this coffee a mild taste and an incomparable aroma. Its hint of caramel and prolonged aftertaste has fascinated gourmets around the world.

Brazil Fazenda Rainha
One of Brazil’s top coffees, it has a mild, velvety flavour with a hint of delicate chocolate. The rare yellow beans are both a specialty and a rarity, producing premium coffee that always scores highly in competitions.

Ecuadorian Vilcabamba
A sensuous delight, connoisseurs value this coffee for its initial fresh, slightly fruity tones that slowly fade in a sustained yet intense aroma. Grown in the village of Vilcabamba, where it is a family-based craft, annual yields are quite low, creating a lot of demand for this coffee.

Rwandan Gorilla Mountain
With its home in the volcanic rain forests of central Africa, this coffee has a mild, complex aroma with a hint of black tea and delicate acidity. It gets its name from its impressive neighbours, with the region being the last natural sanctuary of the rare mountain gorillas.

Nepalese Mount Everest Supreme
One of the rarest coffees in the world, this outstanding coffee comes from the first and only plantation in Nepal. The unique climate and terrain gives it a full-bodied aroma, delicate spice, slightly nutty tones and an elegant acidity.

Indian Parchment AA
The Indian subcontinent is known world over for its black teas. However, very few people know that this excellent coffee grows here as well. This fantastically mild, yet stimulating coffee has a delicate flavour and powerful body.

Australian Skybury Plantation
This excellent coffee from Down Under is a favourite of discerning connoisseurs with its soft and mild, yet richly aromatic flavour with a slightly fruity acidity. However, yields of these green beans is quite low, and as a rarity, they are much in demand.

How do you start your mornings – freshly ground coffee or coffee capsules?

Advantages of freshly ground coffee

- You get a fresh, aromatic and delicious cup of coffee each time, every time
- Use your favourite coffee beans
- Can be used to make a variety of coffee drinks, with or without milk
- Comes with multiple programmes to help you make a cup of coffee exactly the way you like it
- You can programme it to keep a cup of coffee ready for when you wake up in the morning

Disadvantages of coffee capsules

- The aroma and taste of coffee is subdued as compared to fresh coffee
- You can only use coffee capsules that are manufactured by the same company as your coffee machine
- Capsules are more expensive than ground coffee
- Some capsules are not recyclable
- The variety of coffee available in capsules is limited

Add excitement to your early morning coffee.

Orange Coffee

Ingredients for 4 servings:
- ½ l hot coffee
- 8 sugar cubes
- 1 orange
- 125 ml cream
- 2 kumquats

Preparation:
Rub the sugar cubes on the orange until the edges turn slightly orange and place 2 cubes in each cup. Fill with coffee and top with whipped cream. Decorate with slices of kumquat and orange zest.

Coffee Marrokine

Ingredients for 2 servings:
- 2 espressos
- 2 tsp brown sugar
- 200 ml cold peppermint tea
- Ice cubes
- Mint

Preparation:
Divide the espresso between the glasses and stir in the brown sugar. Add the ice cubes and fill with cold mint tea. Garnish with a few mint leaves.

Aztec Coffee

Ingredients for 2 servings:
- 50 g plain chocolate
- 2 generous pinches of ground cinnamon
- 1 generous pinch of ground star anise
- 1 tbsp crushed pink peppercorns
- 2 espresso lungos
- Milk froth to taste

Preparation:
Chop and melt the chocolate. Mix in the cinnamon, star anise and pink peppercorns. Divide between two pre-warmed glasses. Pour an espresso lungo into each cup and stir. Top with a little milk froth. Garnish to taste with cinnamon sticks, star anise and pink peppercorns. Serve hot.

Follow us on Facebook to stay posted on delicious coffee recipes and much more.

Barista quality you can see and taste.

VeroSelection: The indulgent, fully-automatic coffee machine from Bosch.

To make skillful coffee creations, you need years of experience. Or unique technology from Bosch.

Vero fully-automatic coffee machines create professional, barista-quality coffee. The SensoFlow System guarantees a constant brewing temperature, which provides a unique coffee indulgence.

Perfect pressure: The AromaPro Concept.
The AromaPro Concept brings you the finest aromatic flavour and an exquisite crema. A precise pressure system always compresses the ground coffee perfectly, whatever the quantity. The convex shape of the tamper means that the water takes longer to pass through the ground coffee, enabling more flavours to unfurl.

Outstanding aroma: AromaDouble Shot.
Two grinding and brewing processes for extra-strong coffee to reduce bitterness.

For perfect results every time: CreamCleaner.
The milk system can be quickly and conveniently rinsed at the touch of a button – for perfect milk froth and optimum hygiene at all times.

Pure indulgence: SinglePortion Cleaning.
Perfect indulgence and freshness with every cup – the pipes are cleared of any remaining water following each brewing process.

The new VeroSelection. To experts, it’s an exceptional coffee machine. To your family, it’s pure indulgence.

Added variety with eight different coffee strengths.
The strength of the coffee can be adjusted in eight levels: Five regular strength levels and three AromaDouble Shot levels. This results in the strongest coffees, such as latte macchiato, made with up to 24 g of coffee powder.

Milk frothed to perfection: CreamPro Concept.
The advanced milk frother ensures that the milk, steam and air are swirled as much as possible to produce a particularly bubbly and creamy milk froth.

CoffeeSensor Pro for the perfect aroma.
The grinder is controlled by a sensor which adjusts the grinding time to the quantity of beans, ensuring that you always grind the perfect quantity of beans for the perfect strength of coffee.

The quietest, fully-automatic coffee machine from Bosch.
A sophisticated sound design with optimised sound insulation and special seals significantly reduces noise in the quietest fully-automatic coffee machine from Bosch. With this innovative feature, you can start enjoying your coffee experience the second you start making it.

Customisation with the PersonalCoffee Pro.
With this function, up to six people can store the personal settings for their favourite drinks and recall these preferences on request.

TES803M9GB
VeroSelection 300. Fully-automatic Espresso Maker

Flavour
- SensoFlow System: The innovative heating system guarantees maximum espresso indulgence every time, thanks to its ideal, constant brewing temperature
- AromaPro Concept: Ideal contact pressure for optimal aroma extraction
- One-touch preparation: Espresso, coffee, cappuccino, latte macchiato at the touch of a button
- AromaDouble Shot: Extra-strong coffee with less bitterness, thanks to two grinding and brewing processes
- Beverage temperature adjustable individually: Coffee: 3 levels, hot water: 2 levels
- Suitable for BRITA Intenza water filter: Improves the coffee’s taste and prolongs the appliance’s life

Convenience
- High-end clear text display with interactive menu
- SuperSilent: The most silent fully-automatic espresso maker from Bosch, thanks to significant noise reduction
- PersonalCoffee Pro: Personal beverage menu for up to 6 persons
- IndividualCup Volume: Cup sizes adjustable individually to ensure your cup gets filled just as far as you would like it to
- Coffee outlet and milk frother height-adjustable: Even 15 cm high latte macchiato glasses fit underneath
- Two cup selection options for espresso, coffee: Prepare two cups simultaneously
- Water tank removable for easy refilling (2.4 l volume)
- Flexible milk solution: Decide for yourself if you prefer connecting the provided milk container or using any other container, e.g. a milk carton
- Short user manual always at hand inside the appliance

Performance
- SilentCeram Drive: Quiet premium grinder made from non-wearing ceramic
- CoffeeSensor Pro: The grinding unit automatically adjusts to bean variety
- CreamPro Concept: One-touch coffee and milk specialities with especially fine-pored milk froth, thanks to an innovative milk frother
- Milk froth, warm milk and hot water separately available
- Reduced heat-up time: Fastest first cup
- Water pump with 19 bar pressure
- Separate chute for ground coffee, e.g. caffeine-free coffee
- ZeroEnergy Auto-Off: Automatic disconnection from the mains after preset time
- 15,000 cup warranty: Consistently high appliance quality from the first cup to the 15,000th (valid for non-commercial use within 24 months)

Hygiene
- Removable brewing unit: Easy and hygienic cleaning under running water
- SinglePortion Cleaning: Complete emptying of all pipes after each brewing process
- Automatic rinsing programme when switching off, switching on
- CreamCleaner: Convenient quick rinsing of the milk system
- Milk frother removable and dishwasher-proof
- Drip tray and coffee grounds container removable and dishwasher-proof
- Calc’nClean: Automatic cleaning and descaling programme
- Reminds the time of water filter change, descaling, cleaning; including display of remaining cups

Miscellaneous
- Bean container with aroma protection lid (300 g volume)
- Grinding fineness adjustable (multi-level)
- Display language selectable
- Child safety lock: Unintended brewing process not possible
- Storage compartment for power cord (1 m)
- Wattage: 1600 Watt

Accessories
- Insulated milk container (0.5 l volume)
- Further included accessories: Measuring spoon for ground coffee, acrylic milk pipe, connection hose for milk frother, test strip for water hardness

TES50221GB
VeroCafe. Fully-automatic Espresso Maker

- Wattage: 1600 Watts
- Coffee and espresso from bean to cup at the touch of a button
- SensoFlow System: The innovative heating system guarantees maximum espresso indulgence every time, thanks to its ideal, constant brewing temperature
- Innovative brewing technology AromaPro Concept
- CeramDrive: High-quality grinder made of wear-resistant ceramic
- Reduced heating-up time: Fast first cup
- Water pump with 15 bar pressure
- Preparation of 2 x espresso or 2 x café crème in two consecutive grinding and brewing cycles
- Pre-brewing function
- MilkMagic milk frother with guarantee of success, thanks to automatic frothing in the cup
- 150 mm distance between coffee outlet and cup shelf to accommodate large latte macchiacto glasses
- Hot water separately available
- Convenient quick rinsing function of milk system with CreamCleaner
- Milk frother removable and dishwasher-proof
- Fully-automatic descaling and cleaning programme Calc'nClean
- Automatic rinsing programme when switching off, switching on
- Removable brewing unit: Easy and hygienic cleaning under running water
- SinglePortion Cleaning: Complete emptying of all pipes after each brewing process
- Multiple pre-set cup sizes to select from
- Individually adjustable temperatures for coffee: 3 levels
- Grinding fineness adjustable (multi-level)
- Height-adjustable coffee outlet
- Graphical/text liquid crystal display with direct access via 2 rotary controls
- Display language selectable
- Indication when bean container or water tank empty
- Electronic water filter exchange indicator
- Water tank removable for easy refilling (1.7 l volume)
- Bean container with aroma protection lid (300 g volume)
- Drip tray and coffee grounds container removable and dishwasher-proof
- Separate chute for ground coffee, e.g. caffeine-free coffee
- ZeroEnergy Auto-Off: Automatic disconnection from the mains after preset time
- Illuminated keys
- Storage compartment for power cord (1 m)
- Further included accessories: Measuring spoon for ground coffee, test strip for water hardness

TKA3A034GB
Filter Coffee Machine

- Wattage: 900-1100 Watts
- Aroma protecting glass jug for 10-15 cups (1.25 l)
- Brewing system for optimum taste extraction
- Drip-stop function
- Integrated water tank, including water level indicator
- Removable swing-out filter (1x4)
- Keep-warm plate
- Auto shut-off after 2 hours
- Illuminated on/off switch
- SafeStorage jug, cable and plug depot for compact and safe storage

Breakfast appliances.

Selected temperature maintaining function
BOSCH
70° 80° 90° 100° keep warm

Only in TWK8631G.

TWK 86 series kettles.

TemperatureControl: Temperature selection function
Different types of tea need different water temperature for proper brewing. White and green teas reveal their full aroma and taste when brewed at lower temperatures (60 – 80°C), black tea in well-boiled water. With TWK86 series kettles, you can now choose one of four temperature levels: 70°C, 80°C, 90°C and 100°C.

Light indicators show selected temperature mode and current temperature with intervals 70–80–90–100°C during operation of the appliance.

KeepWarm Function: Maintaining selected temperature
This kettle has a peculiarity – it can maintain a selected water temperature for 30 minutes. This way, formation of scale and residues in the water is reduced to a minimum since re-boiling doesn't take place.

TAT 86 series toasters.

MirrorHeating: Balanced toasting
4 quartz heating elements are used as heating elements in this appliance. Unlike standard heating elements, these elements evenly distribute the heat along toast, providing perfect results.

Perfect golden colour of your toast with AutoHeatControl
If you want to get well-roasted toast, you need to provide optimum time of toasting. This is especially important when using the toaster a few times in a row. We entrusted this difficult task to our special sensor, which checks the temperature in the roasting compartment and automatically adapts roasting time.

Defrost function
TAT 86 series toasters have a defrosting function. They can defrost, for example, bread that was just taken out of the freezer. After defrosting, the toaster automatically starts the roasting process in selected mode.

TWK8631GB
Cordless Kettle, Styline

- Wattage: 3000 Watts
- 1.5 l capacity
- Four temperature settings for brewing a variety of drinks - 70°C, 80°C, 90°C, 100°C
- Keep Warm function retains water at the desired temperature for up to 30 minutes
- 360° base
- Stainless steel interior base with concealed heating element
- Removable stainless steel limescale filter
- Dual water level indicators
- Button for opening lid
- Acoustic ready signal lets you know when the kettle has boiled
- Lid latch
- Boil-dry and overheat protection
- Anti-slip ‘soft touch’ handle
- Integrated cable storage

TWK6831GB
Stainless Steel, Cordless Kettle

- Wattage: 3100 Watts
- 1.7 l capacity
- 360° base
- Stainless steel interior base with concealed heating element
- Removable stainless steel limescale filter
- Dual water level indicators
- Lighted on/off switch integrated in ergonomic handle
- Button for opening lid
- Automatic switch-off: Kettle automatically switches itself off when water has boiled
- Lid latch
- Auto-Off at vert lid position during operation: Kettle shuts off automatically as soon as the lid is opened during operation
- Boil-dry and overheat protection
- Integrated cable storage

TWK7804GB
Stainless Steel Kettle, Red

- Wattage: 2500-3000 Watts
- 1.7 l capacity
- Stainless steel interior base with concealed heating element
- Removable limescale filter
- Cordless, 360º base
- Water level indicator readable from outside
- Button for opening lid
- Lid latch
- Illuminated on/off switch
- Automatic switch-off: Kettle automatically switches off when water has boiled
- Boil-dry and overheat protection
- Easy storage: Integrated cable storage for simple and quick storage of the cable

TWK6033VGB
Plastic Kettle

- Wattage: 3100 Watts
- 1.7 l capacity
- Cordless, 360° base
- Stainless steel interior base with concealed heating element
- Removable stainless steel limescale filter
- Water level indicator readable from outside, double sided
- Lighted on/off switch integrated in ergonomic handle
- Button for opening lid
- Automatic switch-off: Kettle automatically switches off when water has boiled
- Lid latch
- Auto-Off at vert lid position during operation: Kettle shuts-off automatically as soon as the lid is opened during operation
- Boil-dry and overheat protection
- Easy storage: Integrated cable storage for simple and quick storage of the cable

Vacuums that clean up pet hair faster than your pet loses it.

Bosch’s thorough and extra-powerful vacuum cleaners help make your house an allergy-free zone.

Pet hair-related allergies are a big problem, especially when you have small children at home. What’s more, this hair tends to get into all the nooks and crannies, making cleaning up thoroughly a big problem. Bosch vacuum cleaners come with a variety of exceptional features that help you tackle pet hair faster than your pets lose it. The QuattroPower System gives you high performance with low energy consumption, while the handy nozzle set gives you an extra-thorough clean, no matter what the surface may be. Also, while the washable HEPA hygienic filter keeps allergies at bay, the Bionic filter tackles unpleasant odours head-on.

Extra-thorough cleaning of animal hair with QuattroPower System - Bosch’s performance technology with low-energy consumption.

Innovative ProAnimal turbo brush: Powerful and easy-to-clean carpet nozzle, designed for animal owners. Extra-thorough cleaning of animal hair with QuattroPower System - Bosch's performance technology with low-energy consumption.

Reduction of unpleasant odours with a light, natural fresh scent, thanks to the innovative Bionic filter.

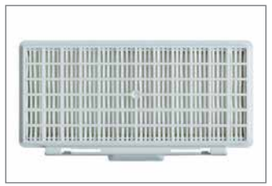
Extra-long cable and 15 m operating radius minimises the tedious task of changing sockets.

Unique SensorBagless™ Technology: Incredibly quiet and powerful with minimal maintenance required.

*Available on request

Handy nozzle-set with powerful and easy-to-clean carpet, and extra-wide upholstery nozzle, designed for animal owners.

Integrated RotationClean System: no contact with dust during the filter cleaning process.



Washable HEPA hygienic filter: suitable for allergy sufferers. The exhaust air is cleaner than the normal air in your house – without the need to buy any other products.

BSGL5PT2GB tornado red
Bosch - Power Animal Vacuum cleaner

Performance
- QuattroPower System: Bosch's performance technology for outstanding cleaning results with low-energy consumption
- PowerProtect System: for long-lasting cleaning performance, even when the bag fills up
- The PowerProtect dustbag ensures high-performance when the bag fills up. Less dustbag changes. Less follow-up costs
- For up to 60% more suction power (with partly filled dustbag) and best performance of your appliance, we recommend usage of PowerProtect Dustbags (Article No.: 00575069)
- Cleaning performance Class-B on carpets
- Best cleaning performance class on hard floor (Class-A according to energy label (EU No. 665/2013))

Hygiene
- Washable HEPA hygienic filter: suitable for allergy sufferers. Reaches dust re-emission Class-A
- Bionic Filter: Odour elimination the way nature does it

Comfort
- Especially quiet switchable roller nozzle SilentClean Premium for extra powerful cleaning performance
- Innovative ProAnimal turbo brush: TwinBrush with black bristles for picking up dust and red bristles for picking up hair, as well as EasyClean for easy maintenance of the nozzle
- Hard floor nozzle, especially developed for in-depth cleaning of floors with crevices and gaps like tiles and floor boards
- Suitable for gentle cleaning of sensitive floors like parquet
- 2-part accessory set on board: Crevice tool and upholstery nozzle
- Telescopic tube
- Ergo grip handle
- Large and easy to use on/off switch - can be foot operated
- Variable suction control

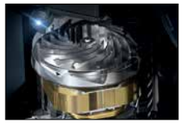
Powerful performance.

Even with Bosch's smallest bagless vacuum cleaner, the innovative SensorBagless™ Technology guarantees high air flow and, therefore, high cleaning performance.

Unbelievable performance, thanks to Sensor Control.

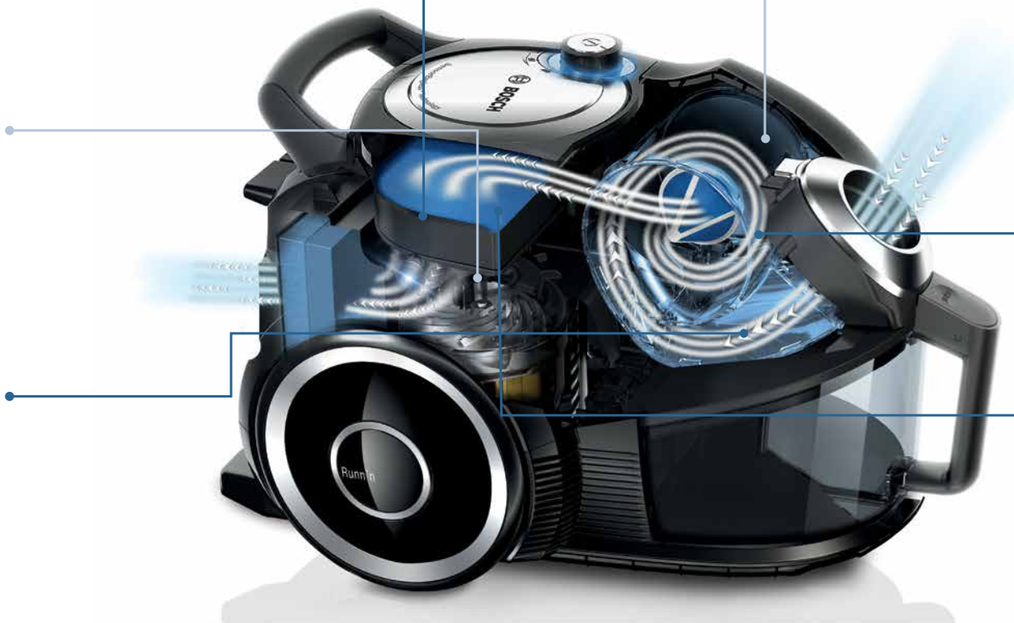
To ensure optimum suction, the filters on bagless vacuum cleaner systems must be cleaned regularly. In practice, however, many users only clean the filter when they notice a significant drop in performance. Consequently, many bagless vacuum cleaners often work far below their optimum performance. In contrast, the Runn'n activates the Sensor Control display if necessary, alerting you to clean the deep filter. This means, you can vacuum with the Runn'n at optimum performance if you clean the deep filter when the Sensor Control display lights up. And it's the same even after years and years.



Green Technology inside

CompressorTechnology
With aerodynamically-shaped fan wheels, the powerful compressor motor provides high air flow while only consuming a low amount of power.

Aerodynamically optimised
The aerodynamic design and large diameter of the air channels optimise the air flow. This reduces undesirable swirling of the air and guarantees high air flow.



Low maintenance.

The multi-level CrossFlow™ dust separator system of the new Runn'n prevents a disappointing loss of performance and minimises the maintenance typically required for a bagless vacuum cleaner year upon year, for the entire life of the appliance.

Minimised maintenance, thanks to Sensor Control.

Sensor Control ensures that you only clean the filter if it is really necessary. The red light control display promptly indicates if the deep filter needs cleaning.

The triple level CrossFlow™ filter system:

1. Dust removal
The air rotates in the cyclone tube at up to 180 km/h – too fast for all larger dust particles that are separated out by the dust removal by centrifugal force in the container.

2. HighTech filter membrane
The smaller particles are separated by the unusually fine-pored HighTech filter membrane. Then the largest proportion of dirt is already in the container and never even reaches the last filter stage.

3. HighCapacity Foam
The large-scale deep filter then removes fine dust from the air. As only a little dust, if any, makes it that far, the easy-to-access deep filter rarely needs to be cleaned. And thanks to the HEPA filter, allergy sufferers can also breathe freely.

High-quality performance that you can rely on.

Experience the difference with a state-of-the-art vacuum cleaner from Bosch.

- 2-part accessory: Upholstery nozzle and crevice tool
- Parking and storage aids
- Automatic cable rewind
- Operating radius: 9.2 m
- 2 large fixed wheels/1 swivel wheel
- Weight: 5.8 kg (cylinder only)

Bagless Vacuum Cleaners

BSGL3228GB
Vacuum Cleaner - Bag & bagless

Radius 10 m | 2200 W | HighPower AirFlow | HighPower Motor | Integrated Accessories | Light

- Input power: 2200 Watts
- Cycle tech dust container capacity: 1.2 l
- Variable suction control
- Ergo grip handle
- Attractive silver application
- Adjustable floor tool (width 260 mm)
- Telescopic tube with sliding sleeve
- 2-part accessory set on board: Crevice tool and upholstery nozzle
- HEPA filtration
- MEGAfilt®SuperTEX self-sealing dust bag
- Dust bag capacity: 4 l
- Dust bag change indicator
- Parking and storage aids
- Automatic cable rewind
- Operating radius: 10 m
- 3 swivel wheels
- Weight: 4.3 kg (cylinder only)

BSD3081GB
Vacuum Cleaner - Bag & bagless

2000 W | Accessories | 3.5 l Capacity | Light

- Input power: 2000 Watts
- Variable suction control
- Ergo grip handle
- Telescopic tube with sliding sleeve
- Adjustable floor tool (width 260 mm)
- 2-part accessory set: Crevice nozzle and upholstery nozzle
- Air clean 2 filtration (6-stage)
- Includes washable micro filter
- Cycle tech dust container
- Parking and storage aids
- Automatic cable rewind
- Operating radius: 8 m
- 2 large fixed wheels/1 swivel wheel
- Weight: 4.8 kg (cylinder only)

Bagged Vacuum Cleaners

BSG8PRO1GB
Vacuum Cleaner - HomeProfessional Long-life Compressor

- Long-life compressor technology: New innovative motor technology with aerodynamic blades and perfectly calibrated air flow throughout the whole appliance for optimal dust pick-up at a low-energy consumption level
- Variable suction control, ergo grip handle, robust professional-looking woven material suction hose
- Stainless steel telescopic tube with sliding sleeve and clip
- Switchable noise optimised roller nozzle with clip-type lock
- Turbo nozzle, air flow control system, air safe system, HEPA filtration
- German TÜV certificate: Suitable for allergy sufferers
- Dust bag capacity: 6 l
- One step dust bag change system
- MegaAir SuperTEX self-sealing dust bag
- Easily accessible exhaust filter
- Electronic dust bag change indicator
- Parking and storage aids
- Automatic cord rewind with red cord
- Operating radius: 13 m
- 4 long-life metal castoring wheels for extremely long lifetime
- Colour: Scratch-resistent titanium laquering
- Hard floor nozzle with soft bristles (width 300 mm)
- Weight: 6.6 kg (cylinder only)

BSGL3126GB
Vacuum Cleaner - Compact Eco HEPA

- Compressor Technology: New innovative motor technology with aerodynamic blades and perfectly calibrated air flow throughout the whole appliance for optimal dust pick-up at a low-energy consumption level
- Variable suction control
- Ergo grip handle
- Adjustable floor tool (width 270 mm)
- Telescopic tube with sliding sleeve
- 2-part accessory set on board: Crevice tool and upholstery nozzle
- HEPA filtration
- MEGAfilt®SuperTEX self-sealing dust bag
- Dust bag capacity: 4 l
- Dust bag change indicator
- Parking and storage aids
- Automatic cable rewind
- Operating radius: 10 m
- 3 swivel wheels
- Weight: 4.3 kg (cylinder only)

BSN1823SG
Vacuum Cleaner - Bag, Black

- Input power: 300-max. 1800 Watts
- Variable suction control
- Ergo grip handle
- Telescopic tube with sliding button
- Adjustable floor tool (width 260 mm)
- Hard floor nozzle with soft bristles (width 300 mm)
- 2-part accessory set: Crevice nozzle & upholstery nozzle
- Air clean 2 filtration (6-stage)
- MEGAfilt®SuperTEX self-sealing dust bag
- Inclusive 4 dust bags
- Dust bag capacity: 3 l
- Dust bag change indicator
- Parking and storage aids
- Automatic cable rewind
- Operating radius: 8 m
- Weight: 3.6 kg (cylinder only)

Take the chore out of ironing.

Bosch irons make ironing a breeze.

No one likes to iron a large batch of freshly laundered clothes. It’s boring and takes far too much time. But with a Bosch iron, you can cut down ironing time and achieve professional results with unmatched ease; before you know it, ironing would have become your favourite hobby.

Powerful performance, impressive look.

The Sensixx DS37 steam station delivers high performance at the click of a button.

Drawing on abundant resources.
Its concentrated power is noticeable at first glance of the robust and eye-catching design of the Sensixx DS37 steam station. With 3100 Watts, 5.5 bar of pressure and Ultimate230 deep steam, it is particularly powerful and dynamic. The three-steam pulse shots effectively smooth out even stubborn creases. The practical SecureLock System offers greater safety and comfort. The iron is also designed for easy and quick storage at the steam station. Another technical innovation is the Calc'nClean Advanced function that ensures the iron is quickly and easily cleaned and descaled. This extends the service life of your appliance, which means you can enjoy ironing for longer.

Ultimate230 Deep steaming through three intensive steam shots of up to 230 g
Ergonomic handle: Sits neatly in your hand to ensure comfortable ironing over long periods of time
Variable temperature settings
Illuminated display elements On/Off, Fill Water Tank, Steam Ready, Eco button
Large, 1.4 l water tank, permanent filling
SecureLock System
Infinitely variable steam regulation
BOSCH
Sensixx AdvancedSteam
Sensixx DS37 EditionRosso
3100W
5.5 bar

3100 Watts and 5.5 bar of steam pressure
Mobilise extensive power reserves at the touch of a button. 3100 Watts ensure short heating-up times and maximum performance. 5.5 bar of steam pressure ensures even the most stubborn creases can be ironed out of fabrics.

PulseSteam
When it comes to the crunch, combat unrelenting creases in thick fabrics at the click of a button. This activates the three intensive 230 g steam shots that are guaranteed to smooth out any type of crease.

SecureLock System
Safety all around:
The comfortable fixing prevents the iron from falling once locked. You can now transport the entire station by the iron handle and store it.

PalladiumGlissée soleplate with AdvancedSteam System
For perfect ironing results:
The special material of the soleplate has excellent gliding properties on all fabrics. Innovatively arranged channels and holes distribute the steam over three zones, ensuring exceptional smoothness.

Thanks to this innovation, the resistant PalladiumGlissée soleplate always penetrates the steam deep into the fabric at an optimal temperature and distributes it evenly, thereby protecting the fibres in the fabric.

Calc'nClean Advanced
Ensures a long service life:
The Calc'nClean Advanced function enables you to quickly and effortlessly remove loose scale particles from the steam chamber and the soleplate using the limescale collector, and effectively protect the appliance against limescale build-up.

Experience the power, performance and precision that are incorporated in this perfectly formed design.

From the handle to the plate: An attractive true professional – the Sensixx'x DA50 EditionRosso.

Very special ironing quality
The Sensixx'x DA50 EditionRosso presents the new, expressive design from Bosch. This iron fascinates through its ergonomic form and characteristic colouring. Thanks to the soft touch handle and new thumb rest, ironing is effortless and pleasant. Beneath the gently gliding CeraniumGlissée soleplate, the unbeatable interplay comes into effect between the pure power and precision, with up to 3000 Watts and 200 g of steam shot. In full-steam mode, the precision iron tip enables you to smooth and straighten even the most narrow and hard-to-reach parts.

Extra-long fabric cord (2.5 m) with 360° flexible strain relief and retraction option
Soft-touch handle for a good grip and comfortable ironing
Ergonomic thumb rest for relaxed ironing
Extra-large opening
Large parking zone for a secure footing
3AntiCalc
Calc'nClean Advanced
Limescale cleaning at the push of a button
Cord retraction
Spray function
Extra-hard, resistant CeraniumGlissée soleplate
Precision iron tip
Large, transparent water tank (300 ml)
BOSCH
Sensixx'x DA50 EditionRosso
3000 W

3000 Watts power
Saves time spent ironing: The immense 3000-Watt power speeds up the heating-up process and helps you finish your ironing as quickly as possible.

200 g steam performance
A powerful 200 g steam shot also smoothes out stubborn creases at the push of a button. The more powerful the steam shot, the quicker the garment is smoothed.

QuickFilling
Ample water supply: Thanks to the extra large filling opening, the iron is easy to fill – the extensive 300 ml tank volume lasts a long time.

CeraniumGlissée soleplate with AdvancedSteam System
For perfect ironing results: The special material of the soleplate has excellent gliding properties on all fabrics. Innovatively arranged channels and holes distribute the steam over three zones, ensuring exceptional smoothness. Thanks to this innovation, the extra hard, resistant CeraniumGlissée soleplate always penetrates the steam deep into the fabric at an optimal temperature and distributes it evenly, thereby protecting the fibres in the fabric.

3AntiCalc
For a long service life: The 3AntiCalc protection with SelfClean, Calc'nClean and built-in AntiCalc System effectively prevents the build-up of limescale in the appliance and maintains its functions over a long period of time.

TDS3771GB
Steam Station Sensixx DS37

Key features
- Wattage: 3100 Watts max.
- Ultimate370: Deep steam through 3 intensive steam boosts up to 370 g
- Eco-button: Energy savings of up to 25% and water saving of up to 40%
- SecureLock System: The iron is fixed on the steam station for more safety during transport and storage
- Calc'nClean Advanced: A special scale collector which can easily be removed for fast and easy cleaning of the steam station

Performance
- i-Temp Advanced: The perfect combination of temperature and steam for all ironable fabrics
- AntiShine programme: Special protection for dark and delicate fabrics
- Secure auto shut-off: For more security, automatic switch-off when iron is left unattended
- Calc'nClean Timer: Reminiscent of the cleaning
- Vertical steam for quick and easy refreshing of fabrics
- Large removable watertank: 1.4 l for permanent refilling

Additional features
- 5.5 bar steam pressure with security system
- Heat-up time approx. 2 mins
- Iron with AdvancedSteam System for comfortable ironing
- CeraniumGlissée soleplate with steam channels and 3-phase layout: Ideal steam distribution and superb gliding
- AdvancedSteam System: Optimised steam distribution due to a new advanced soleplate design
- Removable non-slip iron pad
- Large storage facility for easy storing of the steam hose and power cord
- Comfort indicator: Indicates "water tank empty" and "steam ready"
- Illuminated main power on/off button
- Steam and dry ironing
- Anti-slip base

TDA7060GB
Steam Iron Sensixx´x DA70 i-Temp

Key features
- Wattage: 2800 Watts
- i-Temp: One temperature setting for all ironable fabrics. Easy, quick and safe
- SensorSecure: The iron switches off when put down, and heats up extremely quickly when it is picked up again
- CeraniumGlissée soleplate with enamel gliding lines, steam channels and 3-phase layout: Ideal steam distribution and superb gliding
- AdvancedSteam System: Optimised steam distribution due to a new advanced soleplate design

Performance
- Continuous steam 50 g/min
- Shot of steam 200 g
- Vertical steam for quick and easy refreshing of fabrics
- Variable steam control
- Variable temperature control

Additional features
- 3AntiCalc: Triple cleaning function with self-clean, Calc'nClean and built-in anti-calc system
- The TempOK display signals during the heating or cooling phase, when the set temperature is reached
- Drip-stop function
- Ergonomic design: Thumb rest and large buttons for maximum comfort during ironing
- QuickFill: Big filling inlet for quick and easy filling/emptying
- Extra long 3 m cable with flexible joint and cord tidy facility
- Large transparent water tank (380 ml) for quick and easy filling
- Slim ironing tip: Easy ironing along the buttons and seams
- Water spray function

Accessories
- Water refill beaker

TDA5070GB
Steam Iron Sensixx'x DA50 EditionRosso

Key features
- Wattage: 3050 Watts
- CeraniumGlissée soleplate with steam channels and 3-phase layout: Ideal steam distribution and superb gliding
- AdvancedSteam System: Optimised steam distribution due to a new advanced soleplate design

Performance
- Continuous steam 50 g/min, shot of steam 200 g, vertical steam, variable steam control, variable temperature control

Additional features
- 3AntiCalc: Triple cleaning function with self-clean, Calc'nClean and built-in anti-calc system, drip-stop function
- Ergonomic design for convenient ironing:
  - comfortable soft touch handle
  - convenient thumb rest
  - ergonomically shaped big buttons
- QuickFilling: Bigger filling inlet with lid for fast and easy filling/emptying
- Extra long 3 m cable with flexible joint and cord tidy facility
- Large transparent water tank (300 ml) for easy and fast filling
- Slim ironing tip: Easy ironing along the buttons and seams, water spray function, LED control light
